

NATHANIEL AKOBUNDU

UI/UX Designer & Developer

About Me

I am a product designer and a front-end developer, my artistic experience gives me the unique ability to apply design in all its forms to business processes. I have over 4 year of experience in user-centered design, user research, design thinking and strategy, with 2years of experience in front-end development, my design tools include Figma, Illustrator, Invision, HTML, CSS, Bootstrap and ReactJS.

Experience

Product Designer | Solara Web

04/2022 - Present

- Collaborated with product managers on 5products from conceptualization to the final stages of development.
- Conducted competitor analysis and trend observations to better target user expectations and identify new product opportunities.
- Led monthly brainstorming sessions to facilitate new ideas for product improvement.
- Transformed my UI/UX design projects into a nice websites using HTML, CSS, Bootstrap and React.

Product Designer | Chelsea Group Ltd

09/2019 - 02/2022

- Created wireframes, site maps, flow diagrams, and hi-fi interactive prototypes.
- Met with clients to sketching out all kinds of design for the project on paper or board.
- Collaborated with creative team members and developers to prepare mockups, concept art, storyboards, creative briefs and 3D models.
